

# I LOVE YOU

---

I still see you

Has I saw that day

I still love you

Has I never loved before

I still need your love

I need to feel your kiss

I will never leave you

I will never lie to you

Come to me my love

Come do not get afraid

Come and see

Come to me

See with your eyes

Became mesmerize

See my true form

See the inner me

See the love

I got inside

Feel how warm I am

See that I have change

Change for you

For us

Let me love you for a second

Let me hold you in my arms
