

Sunset Party

Sun went to bed

Upset he said goodbye to the day

Noesis party started without TED

Smiles up glass's full, it's all we can say

Entering in the beach we start to play

Today we celebrate all night

Pillows will stay away while the moon is still bright

All together drinking and dancing

Right now we enjoy the sound

Try to have fun and get around

You, me, all singing sunset party rock's until dawn
