

Samantha Cabral

**She is full of love,
As the day is full of bright,
Many times she has fallen from above,
And raise that many times with all her might
Never fake and always funny,
The more we speak the more we meet,
Huge hugs, she gives, so we don't forget her sweet,
As she remains strong, she is no one's honey.**

**Conceal secrets we all do,
Amazing are her eyes,
Blazing fire in the dark skies,
Remember her of what, when and who,
As she falls asleep with her man,
Light and warm she became.**
