

Writing just because I can and today is poem day or so they say

To write or not to write,
I have the right,
To choose or not to choose,
To remove away the white,
Mixing the shapes of black ink
And knowing that the past is constant,
The future and the present do not exit,
Life flows due to time and space,
And regretting is a waste of energy,
Since you cannot change what has happened,
But you can always regret what you haven't done,
Be wise don't think much and do it, do it now!!!
Before it becomes past and then you wasted your opportunity,
Remember if you don't do it on this life,
You will always have the next life to try it again,
Because tomorrow will always be a better day in my mind since it still does not exist yet...
